

Summer in the Sun

Saving Abel

Yesterday's come and gone but tomorrow's another day
I think about all those summers we spent down by the lake
We never had no money but no one seemed to care
Nothing but time on our hands, we felt more free there than any
where

It was our summer in the sun
We'll work 'til it's done just trying to have some fun
Yeah, yeah
It's our summer in the sun
We're loud and we're young
And we're never going home, yeah we're never going home

Remember the games we used to play?
Spin the bottle and make a move
We never got no sleep
If we did maybe an hour or two

Now we try to rewind to that place in time when we felt so alive
Yea-ah
Counting the years gone by
We felt more free there than anywhere

It was our summer in the sun
We'll work 'til it's done just trying to have some fun
Yeah, yeah
It's our summer in the sun
We're loud and we're young
And we're never going home, yeah we're never going home
[x2]

Yesterday's come and gone but tomorrow's another day
Now we try to rewind, take me to that place

It was our summer in the sun
We'll work 'til it's done just trying to have some fun
Yeah, yeah
It's our summer in the sun
We're loud and we're young
And we're never going home, yeah we're never going home
[x2]

Yeah we're never going home
