

# Let Me Down Easy

Saving Jane

I can feel us changing, you don't wait for my key to turn the lock  
And it's all around me, I am messing up and I can't seem to stop  
And I want an answer, I have spent the best of all my years with you  
If you think it's over, tell it to me straight cause I deserve the truth

If you're gonna leave me  
Let me down easy  
Don't string me along  
Tell me you're sorry  
Say it's you and not me  
That's all I want  
If you're gonna leave me  
Let me down easy.

I came in to save us  
And it turned out there was nothing left to fix  
And I've been no angel  
But I never thought I'd see us come to this  
I'm not pointing fingers  
Neither one of us should have to take the blame  
If you say it's over, that's a minute less my heart will beat your name.

If you're gonna leave me  
Let me down easy  
Don't string me along  
Tell me you're sorry  
Say it's you and not me  
That's all I want  
If you're gonna leave me  
Let me down easy.

It seems like a thousand years  
I'm tracing back with you  
And everybody's got something to say  
But when it's said and done  
Well this is what it comes down to  
Just the two of us and all of our mistakes

If you're gonna leave me  
Let me down easy  
Don't string me along  
Tell me you're sorry  
Say it's you and not me  
That's all I want  
If you're gonna leave me  
Let me down easy.
