

## Legend I II

Saviour Machine

I will rise through the Earth,  
I will live through the sea,  
I will love you through the darkest age,  
I shall stand in the way of the Light,  
I shall conquer this stage with the Night.  
I am the Prince of the Power of the Air,  
The son of transition.  
I am the way in the silence of one,  
"I am Night," a legend has come.  
Follow me through the flame,  
Come with me in the name  
Of my Father and the morning star.  
I am the desolate one, sold to thee,  
I am Lucifer's son, behold the seed.  
Fallen from grace is the name of the Christ,  
Idol the Shepherd that leads,  
Riding a white horse, the bringer of dreams.  
"Ride away," a legend has come.
