

## Streams

### Saviour Machine

It's the light that surrounds you  
The light that commands you to fight  
Fight to find the answer  
Fight to the door  
Through all eternal question  
Through vision of no more  
Tears of pain  
Fears insane  
Tears of pain  
Bring the reign  
My powers feed the streams  
My powers hold the dreams  
My love I lay upon you  
My eyes have seen the king  
Free the fighting within you  
The fighting may take you to Hell  
And Hell is all around us  
The Saviour lies within  
Within the soul the answer  
The dawn of life begins  
Touch the flame.
