

The shame
The alcohol
Consume their tarnished youth
Fuck the free world
Boredom is cured with a handful of pills
Fuck the free world
Fathers keep in touch with their daughters on Redtube
Fuck the free world
And all we do, all we do is laugh about it
Mortified when did they grow so dumb
Petrified by the ease
They tarnish their nature
With no second thought of self preservation
For their future
Crashed and burnt
Before they took
A second look
When the fuck did they grow so dumb
When the fuck
But what are we supposed to do?
All we do is laugh about it
What are we supposed to do?
All we do is laugh about it
Ready or not, this is it bitches
Show me what you got
Who's fucking laughing now?
Who's laughing now motherfuckers?
