

Needles

Saviour

If you don't want me here then I can disappear
I'll say goodbye to my friends and I'll be gone forever
If you don't want me here then I can disappear
I'll say goodbye to my friends
I'll say goodbye

You use to dream
You use to live
You use to love

We wasted our time having fun

I want to shine like the flutters in our hearts on the first day

On the first day
We were so confident in our skin
We just wanted to peel it off
Should we peel it off?
Should we peel it off?
Should we peel it off?
Should we peel it off?

And I remember day one
Nothing could come between us
No matter how fucked up we were
And I remember day one
Don't you remember?
Nothing could pull us apart
We were joined at the heart

But nothing could prepare me for what happened next
