```
If you don't want me here then I can disappear
I'll say goodbye to my friends and I'll be gone forever
If you don't want me here then I can disappear
I'll say goodbye to my friends
I'll say goodbye
```

You use to dream You use to live You use to love

We wasted our time having fun

I want to shine like the flutters in our hearts on the first day  $\mathbf{y}$ 

On the first day
We were so confident in our skin
We just wanted to peel it off
Should we peel it off?

And I remember day one
Nothing could come between us
No matter how fucked up we were
And I remember day one
Don't you remember?
Nothing could pull us apart
We were joined at the heart

But nothing could prepare me for what happened next
