

# Strength

Saviour

I am strong  
I will live forever  
But not like this  
Forfeit the plan we had in mind  
I'm on the road to be a better man

A thought to salvage  
Just down the street

(These places keep getting older)  
(Keep getting older)  
But we ain't getting younger  
(They keep getting older)  
(These places keep getting older)  
(Keep getting older)  
(They keep getting older)  
With these hands  
I carved our paths  
I prayed for mercy  
I am strong

I'm gonna live  
I'm gonna live forever  
I'm gonna live  
I'm gonna live forever  
Forever

Cause we could sink like quick sand  
(Or fly like fire flies)

Down this path  
Are worlds where love can rest and prosper  
There fucking better be  
Tell your friends  
I never meant for it to be like this  
Please trust me now  
Please trust me now  
Please trust me  
Please trust me now

(Please tell your friends it was never meant to be like this)  
Cause I bled  
I bled, I bled  
Cause I bled for you  
I fuckin bled for you  
(Never meant to be like this, it was never meant to be)  
Cause I bled  
I bled  
Cause I bled for you  
Cause I bled for  
So don't you dare say you don't care  
Say you don't care  
Don't you dare say you don't care  
Say you don't care  
(Never meant to be like this)  
Don't you dare say you don't care  
Say you don't care

So don't you dare say you don't  
Cause I did this for you  
I did this for us  
Cause in this life  
You only get one chance  
You only get once chance  
This is my last chance

This is for my friends  
This is for my family  
This is for my friends  
This is for my family  
This is who I am  
And I will always be the same  
This is for my friends  
This is for my family  
Yeah
