

# Deep In My Heart

Savoy Brown

I've loved you for a long time but I never let you know  
All the times we were together I never told you so  
You've been my dream lover but I never let you see  
How I really felt and what you mean to me

You're deep in my heart, deep in my soul  
It's burning me up, I want the whole world to know

Since I first met you I've been feeling this way  
Listening from a distance to everything you say  
I've thought so long about you, baby you and me  
I've dreamed of life together and how it could be

You're deep in my heart, deep in my soul  
It's burning me up, I want the whole world to know  
Deep in my heart, you're deep in my soul  
It's burning me up, I want the whole world to know

You're deep in my heart, you're deep in my soul  
It's burning me up, I want the whole world to know  
Deep in my heart, deep in my soul  
You're burning me up, I want the whole world to know

Deep in my heart, you're deep in my soul  
It's burning me up, I want the whole world to know  
Deep in my heart, you're deep in my soul  
Burning me up, I want the whole world to know  
Deep in my heart, deep in my soul  
Burning me up, I want the whole world to know
