

# Money Can't Save Your Soul

Savoy Brown

Well you've got a new man  
And that's good for you  
And you got a lot of money  
But what good will that do  
When he leaves you on the side  
And the money falls away  
You'll come running back baby  
Believe what I say

Money can't save your soul  
You better leave now  
While it's still ain't old  
Money can't ease your mind  
Come back and leave it all behind

Your in his house  
And it sure looks fine  
With three other girls  
But your first in line  
But what would happen  
When your time comes round?  
The money will go  
And you'll be homeward bound

Money can't save your soul  
You better leave now  
While it's still ain't old  
Money can't ease your mind  
Come back and leave it all behind

Money can't save your soul  
You better leave now  
While it's still ain't old  
Money can't ease your mind  
Come back and leave it all behind
