## Money Can't Save Your Soul

## **Savoy Brown**

Well you've got a new man And that's good for you And you got a lot of money But what good will that do When he leaves you on the side And the money falls away You'll come running back baby Believe what I say

Money can't save your soul You better leave now While it's still ain't old Money can't ease your mind Come back and leave it all behind

Your in his house And it sure looks fine With three other girls But your first in line But what would happen When your time comes round? The money will go And you'll be homeward bound

Money can't save your soul You better leave now While it's still ain't old Money can't ease your mind Come back and leave it all behind

Money can't save your soul You better leave now While it's still ain't old Money can't ease your mind Come back and leave it all behind
