When It Rains

Savoy Brown

You left me baby, and I know the reasons why
The sun was shinnin' when you said goodbye
Everytime fair weather comes around
I look for you, you're nowhere to be found

But when it rains
But when it rains
But when it rains
You'll come runnin' back again

I don't know if I can take anymore
The sun shines and you walk out the door
You can't go on doin' me this way
Leavin' me alone on a blue sky day.

But when it rains
But when it rains
But when it rains
You'll come runnin' back again

You left me baby, and I know the reasons why
The sun was shinnin' when you said goodbye
Everytime fair weather comes around
I look for you, you're nowhere to be found

But when it rains
But when it rains
But when it rains
You'll come runnin' back again

Now when it rains
You'll come running back again

But when it rains
You'll come running back again

When it rains
When it rains
When it rains
When it rains
