

Another Mile

Sawyer Brown

I was sittin' at the station
Waiting for a sign
It was closed for renovation
You smiled as you walked by
You were a long time in coming
I've waited quite a while
Here we are rollin'
And we've gone another mile

Another mile
One more mile
We can make it down this road girl you and I
Love grows strong just hold on
And you'll find that we've gone another mile

This world moves in circles
Never one straight line
It keeps us all from seeing
What lies ahead to find
But I know when I get home
You're the reason why
I had to keep on goin'
Till I'd gone another mile

And you'll find that we've gone
Yes you'll find that we've gone
Another mile
