

# Come Back Baby

Sawyer Brown

I'm sitting here and got myself situated between a rock and a real hard place  
My name is mud and here it gets complicated  
I got egg dripping all over my face  
You tell me your leaving  
You oughta be doing something else tonight  
But before you go girl there's just one thing

Come back baby  
Don't stop coming back baby  
Run back baby  
Don't stop running back girl  
You can call me any ole time  
I'll be here with my arms open wide  
Come back baby  
Don't stop coming back girl

I've been a fool and don't you know I've been taken you for granted  
Way way too long I'll be here yeah ready and a waiting  
Girl I'll miss you when you're gone  
You say that you're leaving  
Cause all I do is make you cry  
When you've gone too far girl and you want to come home

Come back baby  
Don't stop coming back baby  
Run back baby  
Don't stop running back girl  
You can call me any ole time  
I'll be here with my arms open wide  
Come back baby  
Don't stop coming back girl

The moon is out and I feel a rush  
The stars are shinning bright  
Don't want to see you walking away to a lonely night

Come back baby  
Don't stop coming back baby  
Run back baby  
Don't stop running back girl  
You can call me any ole time  
I'll be here with my arms open wide  
Come back baby  
Don't stop coming back girl  
Got to come back  
Got to come back  
Got to come back  
Got to come back
