

Drive Away

Sawyer Brown

Pack your bags it's time to go
The clock down town runs way to slow
Daddy say's I'll have to wait
But all we got to do is drive away

Drive away you and me
We'll blow this town and we'll find our dream
Where we'll stop it's hard to say
We'll leave a trail smokin' when we drive away
We'll leave a trail smokin' when we drive away

With me the lead and you the star
We're way out front in a faster car
Like two dots fading on a silver screen
The credits rolling as we leave

Call ahead and tell'em that we're comin'
We'll keep the motor runnin' from now on
