

Every Twist And Turn

Sawyer Brown

With every twist and turn we take
We'll get out in the passing lane
And we'll go on like two rolling stones
We live and learn with every twist and turn

Your mama and daddy didn't like me none
They didn't like my style
But I worked real hard and I got their respect
But it took a while

Gonna find us a preacher, gonna find you a ring
There's a rock or two on the road
Ain't never gonna think about turning around
No matter how heavy the load

With every twist and turn we take
We'll get out in the passing lane
And we'll go on like two rolling stones
We live and learn with every twist and turn

We're underpaid in overdrive, getting by
Working to find our way
Can't see around the bend, so till then
I bought us a Lotto ticket just in case

But win or lose, girl, I'm with you
This much I know for sure
We ain't getting lost wherever we go
'Cause you're my map of the world

With every twist and turn we take
We'll get out in the passing lane
And we'll go on like two rolling stones
We live and learn with every twist and turn

It's a long winding way
That's the way love goes, they say

With every twist and turn we take
We'll get out in the passing lane
And we'll go on like two rolling stones
We live and learn with every twist and turn

We live and learn with every twist and turn
