

I Don't Believe In Goodbye

Sawyer Brown

I keep rollin' it over and over
All the things I want to say
I'll never quit, give up, or forget you
My love will stand in the way

'Cause I don't believe in goodbye
And I believe it takes time
To build something strong, it won't take long
For you to believe in me, just look in my eyes
I don't believe in goodbye

Where love goes, we must follow
And let our hearts lead the way
We'll be the last of the true believers
First in love and last to stay

'Cause I don't believe in goodbye
And I believe it takes time
To build something strong, it won't take long
For you to believe in me, just look in my eyes
I don't believe in goodbye

I don't believe in goodbye
And I believe it takes time
To build something strong
It won't take long for you to believe in me
Just look in my eyes

I don't believe in goodbye
I don't believe in goodbye
I don't believe in goodbye
I don't believe in goodbye
