

# It All Comes Down To Love

Sawyer Brown

Oh, it all comes down to love  
Talking heads talking to us on the television  
Silver screen preachers and politicians  
They say they got an answer  
First they gotta squeeze us  
Send a little money, there's a tax on Jesus  
Fix it with a prayer, fix it with a dollar  
Does anybody out there ever want to holler

It all comes down to love

Self-help guru has got a best seller  
Ricki Lake's got a drag queen bank teller  
1-900, look into a crystal  
NRA says you better buy a pistol  
They made a little pill, but it might cause cancer  
It's just a cheap thrill  
When you're looking for an answer

It all comes down to love  
It all comes down to love

Suits on Wall Street make another million  
Dealer on the back street talkin' to your children  
You cry for help and nobody listens  
You lie awake at night, a-wonderin' what's missing  
Don't it make you want to start a new revolution  
Look into your heart for the one solution

It all comes down to love  
It all comes down to love

It all comes down to love  
It all comes down to love
