

# Lonely Girl

Sawyer Brown

Alone in her room  
Got on his favorite perfume  
But she's goin' nowhere  
She took a chance

And saved the last dance  
Oh but he doesn't care  
She's a lonely girl  
She's a lonely girl

She calls on the phone  
Seems he isn't home  
So she watches TV  
She's gettin' bored

With being ignored  
Oh, she's startin' to see  
She's a lonely girl  
She's a lonely girl

And lonely girls don't stay lonely forever  
Given the time don't think she won't find something better  
You're thinkin' now that you don't need her  
But you'll find out if you leave her a lonely girl, a lonely girl

Oh the telephone rings  
It's the boy down the street  
Says he just wants to talk  
Wonders if they can meet 'cause

And lonely girls don't stay lonely forever  
Given the time don't think she won't find something better  
You're thinkin' now that you don't need her  
But you'll find out if you leave her a lonely girl, a lonely girl
