

# Sharin' The Moonshine

Sawyer Brown

There ain't nothin' that'll rattle your chain  
Like the top laid back on a Chevrolet  
And the things the midnight makes you say  
When you fall in love

And the sundown brings a whole new world  
With good time boys and late night girls  
It takes your breath and starts to swirl  
Under stars above

So, let's share in the moonshine  
Yeah, we'll share in the moonshine  
Yeah, we'll share in the moonshine  
On a hot summer night

When the stars come out and start to play  
The magic melts the blue away  
And at the end of every day  
There's a night-time jubilee

And for her lifetime lover, you can't miss  
When it starts in the evenin' with a gentle kiss  
And old man Cupid can't resist  
It's a twilight mystery

So let's share in the moonshine  
Yeah, we'll share in the moonshine  
Yeah, we'll share in the moonshine  
On a hot summer night

Oh, when the wind is still  
And the stars are over here  
And we'll cruise till it's right  
On a hot summer night

So let's share in the moonshine  
Yeah, we'll share in the moonshine  
We'll share in the moonshine  
On a hot summer night

On a hot summer night  
On a hot summer night  
On a hot summer night  
On a hot summer night
