

## This Time

Sawyer Brown

Sittin' on the front porch nothing but time  
Missed you so bad I'm about to go blind  
I've got the window busted and the door kicked in  
From the last time we said never again

But this time I'm going to see you coming  
Ain't going to be surprised  
Yea this time  
I'm going to know what hit me right between the eyes  
Just one time I want to think it over  
Before we speak our minds  
I know we can make a go this time

It's hard and heavy Lord day and night  
That's the way we love and that's the way we fight  
We can't stay together can't be alone  
We can go for good but we don't stay gone
