

# We're Everything To Me

Sawyer Brown

Standing on the corner and unsuspecting  
My heart out left unprotected  
You walked in, right at home  
Didn't take long for me too know

We're the best thing  
That ever happened to me  
We're everything, everything  
Only took you for me to see  
We're everything to me

Otta' hear 'em talk  
About our condition  
Lost in love beyond recognition  
When I see you, I see me  
We don't say I girl, we say we

We're the best thing, the best thing  
We're everything too me

We're everything, everything  
We're everything too me  
We're everything, everything  
We're everything too me  
We're everything, everything  
We're everything too me
