

# Ballad of the Working Man

Saxon

Hear the whistle blowin'  
Another working day  
Turn the wheels of power  
Earn your daily pay  
The blood and sweat of working men  
Made this country great  
To the kings and queens of industry  
Your lives we celebrate

No matter where you're going  
Remember where you've been  
It takes me back to a simple life  
I sing my song - the ballad of the working man

The rhythm of the engines  
Pounding out a song  
Pulling all together  
To make this kingdom strong  
To every man and woman  
Standin' tall and proud  
We dedicate this song to you  
Rejoice and shout out loud

It's not so complicated  
Remember where you're from  
It takes me back to a simple life  
I sing my song - the ballad of the working man  
Working man

Another round of whiskey  
Another shot of gin  
The bar-maid rings 'last orders'  
Get the last ones in  
The place is full of laughter  
The glasses full of beer  
It takes me to a simple life  
That's nearly disappeared

No matter where you're going  
Remember where you've been  
Take me back to a simple life  
I sing my song - the ballad of the working man  
The ballad of the working man  
The ballad of the working man
