

Crash Dive

Saxon

I just got the news
You're back in town
You're working for a good time
Are you still going down
You're little too crazy
You ain't gonna last
The candle lit at both ends
And it's burning too fast

You're going down
Out of control
You're on a crash dive baby

You're talking too much
You're run out of time
You're walking on the limit
You're way out of line
It's a little too easy
To get what you will
You're running with the wolf baby
You're there for the kill

You're going down
Out of control
You're on a crash dive baby

I just got the news
You're back in town
You're looking for a good time
You're still hanging round

You're going down
Out of control
You're on a crash dive baby
