

# Devil Rides Out

Saxon

Waaaahhh

Cast your spell in the night  
Black hearted woman mystifies  
Heart of stone cold as ice  
Play the cards roll the dice  
You're the devil in disguise  
I see the evil in your eyes  
I used to love you but now I know  
Devil woman ya won't let go

She's a devil, see the devil ride out, waaaahhh  
She's a devil, see the devil ride out, ride out

Spin the wheel cast my fate  
Wicked body filled with hate  
I feel your power in my soul  
Trapped inside your crystal ball  
Turn the key lock me in  
Keep me hungry for your sin  
We were lovers from the start  
Stop your torture of my heart

She's a devil, see the devil ride out, ride out  
She's a devil, see the devil ride out  
See the devil ride out

See the devil  
See the devil  
(See the devil, the devil ride out)  
(See the devil, the devil ride out)  
Ummm, ya black hearted woman  
(See the devil, the devil ride out)  
(See the devil, the devil ride out)  
You're as cold as ice  
(See the devil, the devil ride out)  
(See the devil, the devil ride out)  
See the devil, the devil ride out  
(See the devil, the devil ride out)  
See the devil ride out

I'm the loser in the game  
You're the keeper you got me tamed  
You're the priestess with eyes of fire  
Now I see you're a liar  
I've been a fool I should have known  
You were evil up to the bone  
Break the spell let me go  
It's not a secret anymore

She's a devil, see the devil ride out  
She's a devil, see the devil ride out, waaaahhh

She's a devil, see the devil ride out  
She's a devil, see the devil ride out
