

Frozen Rainbow

Saxon

Far below the valleys, hidden deep beneath the snow
There you'll find the secret of the frozen rainbow
The first of all the ages, lies hidden 'neath the ice
The one who finds the secret holds the power to all life

Father told me stories many years ago
Stories of the rainbow, hidden deep beneath the snow
He searched through all his lifetime, but that was not to be
I'll find the frozen rainbow and set the spirit free

I'll find the rainbow, frozen rainbow
I'll find the rainbow, frozen rainbow

So now I find the rainbow as it was meant to be
My search will soon be over, the secret clear to me
I look into the colors to find the hidden truth
And after all the ages, I'll set the spirit free

I'll find the rainbow, frozen rainbow
I'll find the rainbow, frozen rainbow
