

Krakatoa

Saxon

To the east of Java back in eighteen eighty three
Stood a peaceful island basking in the sea
No one knew the danger lying deep beneath the earth
That Mother Nature's victim would sooth the monsters

Krakatoa
The earth...was .. Sunda with a deadly roar
When the dust had settled Krakatoa was no more

With a scream of fury the power was released
The biggest known explosion the world had ever seen
The shockwaves traveled 'round the earth to smash the
Richter scale
The tidal wave that followed left death and desolation
in it's trail

Krakatoa
The earth...was Sunda with a deadly roar
When the dust had settled Krakatoa was no more

Blasting chunks of magma into the stratosphere
A thousand scarlet sunsets the land, a sea of fear
To the east of Java basking in the sea
The sign of Krakatoa is rising from the deep

Krakatoa
The earth.. was... Sunda with a deadly roar
When the dust had settled Krakatoa was no more

Krakatoa
Krakatoa
Krakatoa
