

Let Me Feel Your Power

Saxon

Tell me now do you wanna see the show
Hard and fast it's the only way to go
Livin' life with everything you've got
Scream and shout take it to the top
Let me hear you screaming
Screaming in the night

Let me feel your power power power
Let me feel your power power power

Turn it on let the night begin
Shout it out let me hear you sing
On your feet the time has come to act
Come with us we'll take it to the max
Let me hear you screaming
Screaming in the night

Let me feel your power power power
Let me feel your power power power

Hard and fast do you wanna see the show
Tell me now it's the only way to go
Livin' life with everything you've got
Scream and shout take it to the top
Let me hear you screaming
Screaming in the night

Let me feel your power power power
Let me feel your power power power
Let me feel your power power power
Let me feel your power power power
Scream it again again again
