

Live Fast Die Young

Saxon

Ride out the storm, no looking back
Stand up and fight, fight for glory
Live fast die young, you're born to run
Stand up and fight, fight for glory

Ride like the wind, straight through the night
Ride out forever
Close to the edge, I'm burning out
Ride out forever
Walking the line, I'm out of time
It's now or never
This street of dreams, I'm breaking out
Ride on forever

Ride out the storm, no looking back
Stand up and fight, fight for glory
Live fast die young, you're born to run
Stand up and fight, fight for glory

Run with the pack, I'm on the loose
No place in heaven
Into the dark, no amount of time
No lucky seven
Open the gates, I'm rolling out
Ride on to freedom
Can't put me down, I've had enough
These chains of freedom

Ride out the storm, no looking back
Stand up and fight, fight for glory
Live fast die young, you're born to run
Stand up and fight, fight for glory

Ride like the wind, straight through the night
Ride out forever
Close to the edge, I'm burning out
Ride out forever
Walking the line, I'm out of time
It's now or never
This street of dreams, I'm breaking out
Ride on forever

Ride out the storm, no looking back
Stand up and fight, fight for glory
Live fast die young, you're born to run
Stand up and fight, fight for glory

Ride out the storm, no looking back
Stand up and fight, fight for glory
Live fast die young, you're born to run
Stand up and fight, fight for glory

Live fast die young!
