

## Running Hot

Saxon

Catch me if you can and tame the beast  
Should I leave you burning in the heat  
Kick the throttle down, I'm on fire  
It turns me on the feel the engine's beat

Take it to the highway  
On the open road  
I want to feel your power  
Screaming into overload  
She's running hot  
She's hot

Coming out of nowhere, moving fast  
I gotta keep the feeling  
Make it last  
Let me feel your body  
I'll explode  
Together we will run to overload

Take it to the highway  
On the open road  
I want to feel your power  
Screaming into overload  
She's running hot  
She's hot

She's running hot  
She's hot
