

## Solid Ball of Rock

Saxon

One night in Louisiana down by highway eighty four  
You could hear a strange dog howling right outside his mamma's  
door

The baby was a killer, the cousin was a priest  
The baby upped and said, "I play the music of the beast"

The devil in concordia looked down and waved his hand  
The boy with jackhawk eyes became the leader of the band  
The connoisseur of rhythm, rock 'n' roll and swing  
But when it comes to boogie you know that he's the king

Solid ball of rock  
Solid ball of rock  
Solid ball of rock crashing out of the sky  
It's shaking all over but he don't know why

The devil went to Memphis as he flew into the sun  
He howled about redemption with a bible and a gun  
The preacher beat his chest and cried, "set my people free"  
The killer said "I'll drag ya to the gates of hell with me"

Solid ball of rock  
Solid ball of rock  
Solid ball of rock crashing out of the sky  
It's shaking all over but he don't know why

Solid ball of rock  
Solid ball of rock  
Solid ball of rock

The killer he was born again and saw gates of hell  
The preacher found redemption in a Jacksonville motel  
The devil takes the hindmost they're running out of breath  
They're gonna have to reckon with the chilling hand of death

Solid ball of rock  
Solid ball of rock  
Solid ball of rock crashing out of the sky  
It's shaking all over but he don't know why

Solid ball of rock  
Solid ball of rock  
Solid ball of rock crashing out of the sky  
It's shaking all over but he don't know why
