## **Stand Up and Be Counted**

Down, down at the bottom Ya gotta try to get yourselves up Ya got nothing to lose when your there There at the bottom Ya gotta stand up Stand up for your rights

We can make it You can break it Stand up Stand up be counted

Out, out in the spotlight Ya gotta leave, leave your worries behind Ya got nothing to lose when your there You be forgotten Well I'll be damning out lives While the damn us in hell

We can make it You can break it Stand up Stand up be counted

We can make it We can break it Stand up Stand up be counted

Down, down at the bottom Ya gotta leave all your worries behind Ya got nothing to lose when you're there There at the bottom Ya gotta stand up Stand up for your rights

We can make it You can break it Stand up Stand up be counted

Stand up, stand up!
