

# Surviving Against the Odds

Saxon

Nobody said it was easy  
When your back's to the wall  
We started with nothing  
Nothing at all

Just me and you against the world  
That's how it's meant to be  
You can't escape the simple truth  
That was our destiny  
Surviving against the odds  
Surviving against the odds

They never thought we could make it  
That was never the case  
We made a vow to each other  
That nothing could break

To stand your ground against the odds  
That's what we've got to do  
Together we can face the worst  
That life can throw at you  
Surviving against the odds  
Surviving against the odds

Don't let them drag you down  
Keep both feet on the ground

You know we started with nothing  
With our backs to the wall  
We never said it was easy  
We've got nothing at all

Just you and me against the world  
That's how it's got to be  
You can't escape the simple truth  
This is our destiny  
Surviving against the odds  
Surviving against the odds

Against the odds  
We're surviving against the odds  
Surviving against the odds
