

# The Eagle Has Landed

Saxon

Take a giant step for mankind  
On a distant lunar sea  
As you travel across the universe  
Will you take a step, take a step for me  
Will you take a step for me Voyage of an eagle  
Blasting to the stars  
You take the hopes and dreams of men  
To find yourself, to find tranquillity  
To find tranquillity  
Traveled across the universe  
And placed the lonely flag  
Out there in isolation  
At the final, the final frontier  
At the final frontier  
The world's in celebration  
As we wait for your return  
You took a giant leap for mankind  
On another, on another world  
On another world  
Take it easy take it slow  
Don't go fast don't let go  
The eagle has landed  
The eagle has landed  
The eagle has landed  
The eagle has landed
