

## Turn out the Lights

Saxon

Big wheels are rolling  
On thru' the night  
We hit the city in the morning  
No time to eat or sleep  
Six concerts in a week  
Take the show across the nation  
Could this be San Antone?  
Or am I stood in Rome?  
Is the real or am I dreaming?  
Standing by the backstage door  
Just like the one before  
We're here to set the spirit free

R: Give us the stage  
Turn on the lights  
Fire up the sound  
We'll rock the nations  
(2x)

Wait for the curtain call Excitement in the hall The stage crew  
ready at their stations The houselights start to dim Another s  
how begins Now it's time to rock the nations Stand in the flash  
ing lights The music fills the night The feeling just goes on  
and on We take the last encore The first of many more The spotl  
ight takes the final bow

R: (5x)

Big wheels are rolling  
On thru' the night  
Daylight comes without warning  
North, south, east and west  
We'll put you to the test  
As we rock across your nation

R:
