

# Unleash the Beast

Saxon

Danger inside deep in your mind  
Beware of the Beast that's within you  
In towers of stone he walks alone  
Close to the edge of your dreams

Shrouded in time the end of your line  
The curse of the past walks among you  
In temples of gold the myth will unfold  
Your destiny waits there for you

Unleash the Beast  
The time has come  
Feel the fire in your soul  
It's time  
Unleash the Beast

In pages of old when fables were told  
Of a time when the beast was among you  
In dark gothic rooms you search for the runes  
To break from the spell that still binds you

Deep in the mist you just can't resist  
To follow the path that will free you  
Like grains of sand that slip through your hand  
The end of the curse still eludes you

Unleash the Beast  
The time has come  
Feel the fire in your soul  
It's time  
Unleash the Beast

Unleash the Beast  
The time has come  
Feel the fire in your soul  
It's time
