

## Voice

Saxon

You called my name  
Deep in the coldest blackest night  
You saved my life  
I heard your voice deep in the night  
But in my nightmare I start to scream  
In my nightmare this is no dream

Who called my name who saved my life  
Deep in the night I heard your voice

I saw the flames  
I watched our memories turn to dust  
I saw them burn  
I walked away not looking back  
But in my nightmare I start to scream  
In my nightmare this is no dream  
This is no dream

Who called my name who saved my life  
Deep in the night I heard your voice

Wake up, wake up, wake up

In my nightmare I start to scream  
In my nightmare this is no dream

Sometimes I wake  
I see the fire in the night  
It's only dreams  
I hear your voice deep in the night  
But in my nightmare I start to scream  
In my nightmare this is no dream

Who called my name who saved our lives  
Deep in the night I heard your voice  
Who called my name who saved my lives  
Deep in the night I heard your voice
