

# Walking the Steel

Saxon

Rising from the ashes  
Floor by floor  
Reaching up into the sky  
Where the eagles soar

The city sleeps, life goes on  
Hope is still alive  
Born again, the towers rise  
Above the New York skies

Rising from the ashes  
For all the world to see

Walking the steel  
Build them high  
Walking the steel  
You touch the sky

A thousand lights are blazing  
Into the night  
Marching on around the clock  
Nothing stops the fight

High above the city  
The work goes on and on  
Racing to the heavens  
Until the job is done

Rising from the ashes  
For all the world to see

Walking the steel  
Build them high  
Walking the steel  
You touch the sky

Remember the heroes  
Remember them all...

Walking the steel  
Build them high  
Walking the steel  
You touch the sky

Rising like the phoenix  
Towards the sky  
See the mighty towers  
Reaching high

Make them strong, work the steel  
Build them to survive  
Born again the twins will stand  
Hope will never die

Rising from the ashes  
For all the world to see

Walking the steel  
Build them high  
Walking the steel  
You touch the sky
