

# Wheels of Terror

Saxon

We take no prisoners, there's no retreat  
Our only purpose is your defeat  
The wheels of death keep turning  
Leave your cities burning  
There's nothing you can do  
To stop them breaking through

Wheels of terror  
Crushing all before  
Wheels of terror  
Battle tanks of war

Blitzkrieg coming, this is the end  
High explosive, your will we bend  
Smashing your defenses down  
Making rubble of your town  
Moving on relentlessly  
Only death will set you free

Wheels of terror  
Crushing all before  
Wheels of terror  
Battle tanks of war

Target in our sights, armor piercing shell  
There's no use running from the raining hell  
Wheels of death keep turning  
Leave your city burning  
There's nothing you can do  
To stop us breaking through

Wheels of terror  
Crushing all before  
Wheels of terror  
Battle tanks of war
