## **Let's Talk About Spaceships**

## Say Hi To Your Mom

And what's that saying again They're only words And words can't kill me Well I can't even spell them And the cadence Of what she says is swell

Let's talk about spaceships
Or anything except you and me, okay?
Let's talk about spaceships
Or anything except you and me, okay?
Okay...

And don't look now
But there's a spider
Crawling on the wall behind you
Yep I should have paid attention
In algebra

Let's talk about spaceships
Or anything except you and me, okay?
Let's talk about spaceships
Or anything except you and me, okay?
Okay...
