

Love Is The Loneliest Place

Say Lou Lou

Long ago when love was easy
I did my best to try
Try to hold you closer to me
As I drown you in lies

Finding luck in stolen moments
As life passed us by
Searching for the broken pieces
In the ashes of time

My hunger desires your blood
I wait for you inside your heart
My hunger desires your blood
I wait for it to fall apart

We walk in mysterious ways
Our love is the loneliest place
Sadness is touching your face
Our love is the loneliest place

Never knew what you wanted from me
Do you know who I am?
A sinking ship on a tightless ocean
A stranger to land

My hunger desires your blood
I wait for you inside your heart
My hunger desires your blood
I wait for it to fall apart

We walk in mysterious ways
Our love is the loneliest place
Sadness is touching your face
Our love is the loneliest place
