

Peppermint

Say Lou Lou

Whose were our last nights and we knew
Smoked another Camel Blue
Your apartment was my world
The light bulbs were the stars
The fire burned like our hearts

Time would pass without a trace
Watch the sunset on your face
Making love as morning comes
Whisper something more
Wanting more and more and more

I still feel your kisses burn with peppermint

Can't forget this interview
Let it linger
Know I never came closer
Your movements in the dark
Does it hurt to be apart?

Don't say it's over
Don't say it's over
Don't say
Don't say it's over
Don't say it's over
Don't say

Don't say it's over
Don't say it's over
Don't say
Don't say it's over
Don't say it's over
Don't say

(Don't say it's over, don't say it's over, don't say)
Something about you was different
I still feel your kisses burn with peppermint

(Don't say it's over, don't say it's over, don't say)
There was something in your touch that felt different
I still feel your kisses burn with peppermint

(Don't say it's over, don't say it's over, don't say)
Something about you was different
I still feel your kisses burn with peppermint

(Don't say it's over, don't say it's over, don't say)
There was something in your touch that felt different
I still feel your kisses burn with peppermint
