

## The Miracle In July

Saybia

She's so fine  
She grows in their minds

She's so fine  
She grows in their minds  
Into the light she conquers the world  
A moment so wonderful  
A diamond so precious  
A beauty beyond compare

She's so fine  
She grows in their minds  
They look into her eyes  
And feel so surprised  
As she crawls under their skin  
They're ready to die for  
The miracle in July

She's so fine  
She grows in their minds  
In their minds

She speaks no words  
But they know what she says  
Just by looking into her eyes  
It's just a God given gift  
That they instantly get  
Just by looking into her eyes  
They don't have to wait for her no longer  
They don't have to wait for her no more

They don't have to wait for her no longer  
They don't have to wait for her no more

They don't have to wait  
They don't have to wait
