

Stacey's Song

SayWeCanFly

Take every breath you can
Love everything you learn from this mess
I think it will make sense in time
But Time is wasted if you live with regrets
I have found a way
To Grow
Strong enough inside to build a home
I can feel your heart
But I can't reach
Your bones
And I will rather die
Than be alone
Stars
Light the Earth at Night
And my heart
Is strong enough to keep itself
Alive
And when the Sun & Moon align
Maybe I can find another heart that
Glow just as bright
I have found a way
To Grow
Strong enough inside to build a home
I can feel your heart
But I can't reach
Your bones
And I will rather die
Than be alone
