

When I Come Home

SayWeCanFly

If you're afraid of the dark tonight
Then you can find the moon
Close your eyes and remember that I miss you
(That I miss you)
If you can't fall asleep tonight
No matter what you do
Just close your eyes little butterfly
I'll catch you
(I'll catch you)

And when you see the stars begin to crumble
Burning as they set the trees on fire
And when you feel yourself begin to tremble
Don't be afraid to tell your heart that it's alright

When the night is dark
I am carried by your spark
And these days all I think about
Is coming home
And when I feel afraid
I tell myself that I'm OK
Because I know you'll be right there
When I come home
And I won't be alone

If you're afraid of yourself tonight
And you can't find your wings
Close your eyes
And remember that it's almost spring
If you can't comfort yourself tonight
No matter what you do
Just close your eyes little butterfly
I got you
(I got you)

And when you see the sky begin to tremble
Breaking as it sets the world on fire
And when you feel yourself begin to stumble
Don't be afraid to tell yourself that it's alright

And when the night is dark
I am carried by your spark
And these days all I think about
Is coming home
And when I feel afraid
I tell myself that I'm OK
Because I know you'll be right there
When I come home

When I feel afraid
I tell myself that I'm OK
Because I know you'll be right there
When I come home
