

## New Dorp. New York

SBTRKT

My girl got a minimum  
Keep stuck right there 'til the number comes  
Leave the smooth operator lookin' like a bum  
My girl's got a city to run  
Got the key to the kingdom where the money's from  
Never seen the color yellow never seen the sun  
And he thinks I'm the negative one?

Flags flapping in Manhattan, New Dorp, New York  
Gargoyles gargling oil, peak of the Empire, Top of the Rock

My girl's got a little schtick  
Keep it cooking in the kitchen, while feeding the kid  
Keep you waiting in the window while the time just ticks  
My girl got a limousine, got a full time job just to keep it clean  
Got the speakers in the trunk, know the ways to talk  
And you think I'm the negative one?

Late nights, with Black Israelites  
A bright woman singing under dining lights  
The baseball bats never hit homeruns
