Boy, I, I need me a gold, gold crown  
Boy, I, I need me a gold, gold crown  
Boy, I, I need me a gold, gold crown  
Boy, I, I need me a gold, gold crown

We're on a mission across the stars  
Light through dark  
Blue gold, shine, fly, seated at the opposite  
So you can see there is no time

Breath slow, be low  
Capacity is unfulfilled, take the, take the lead  
You will, head raised, un-caged  
More to do, there's more for you

All I see is you, stars  
Open arms, Pharaohs, god, golden  
All I see is you, stars  
Open arms, Pharaohs, god, kings and queens

Beyond a system shaped with a gold radar  
Fools know, bright eyes  
Rested at the opposite  
When you can really see through eyes

Be slow, real glow, boy  
You sent me by your will, taste of what you feel  
Head raised, un-caged  
More to do, there's more for you

All I see is you, stars  
Open arms, Pharaohs, god, golden  
All I see is you, stars  
Open arms, Pharaohs, god, kings and queens

Breath slow, be low  
Capacity is unfulfilled, take the lead  
You will, head raised, un-caged  
More to do, there's more for you

Boy, I, I need me a gold, gold crown  
Boy, I, I need me a gold, gold crown  
Boy, I, I need me a gold, gold crown  
Boy, I, I need me a gold, gold crown

All I see is you, stars  
Open arms, Pharaohs, god, golden  
All I see is you, stars  
Open arms, Pharaohs, god, kings and queens

All I see is you, stars  
Open arms, Pharaohs, god, golden  
All I see is you, stars  
Open arms, Pharaohs, god, kings and queens
