

Wonder Where We Land

SBTRKT

If you're only passing by
If we were only passing time, I'm fine with it
Just let it be known, that the moments been sewn into my heart
Just let it be known, that the moments start to floating past

Impermanence, it's so permanently with me
And it's why I understand
It's not forever you'll be with me
I wonder where we'll land
Yes, I wonder where we'll land
Yes, I wonder where we'll land
(I wonder where we'll land)

Cause I got shot up
I got thrown up in the air
And I wonder where we'll land
But I'm not even scared
Hard to take too [?]

Signals, getting trapped
One-on-one there's nothing more perfect
I understand that I ain't perfect
But I'm not right for you

(What the fuck is that?)
(Ooh, what the fuck is that?)
