

Goodbye

Scanners

I have to say, I never liked you much anyway
I never cared for the things you'd say
You talk a lot of s**t my friend
And I hate to think, that all we had was tied up in drink
We never thought that one day we'll say that
I know it's the end
Cause if I feel I'm falling way to fast
Its just another day and now its just our last
As I look back now, tears in my eyes
Time to say our last goodbye

Lives divide, time destroys it, can't be denied
And just you're left with the scars inside
Knowing that the pain has gone

Cause if I feel, if I feel
Its just another day, another day
As I look back now, tears in my eyes
Time to say our last goodbye

I look back now, tears in my eyes
Time to say our last goodbye

As I look back now, tears in my eyes
Hear me calling "Time to say our last goodbye"

I look back now, tears in my eyes
Time to say our last goodbye
