

## Goodbye

Scanners

I have to say, I never liked you much anyway  
I never cared for the things you'd say  
You talk a lot of s\*\*t my friend  
And I hate to think, that all we had was tied up in drink  
We never thought that one day we'll say that  
I know it's the end  
Cause if I feel I'm falling way to fast  
Its just another day and now its just our last  
As I look back now, tears in my eyes  
Time to say our last goodbye

Lives divide, time destroys it, can't be denied  
And just you're left with the scars inside  
Knowing that the pain has gone

Cause if I feel, if I feel  
Its just another day, another day  
As I look back now, tears in my eyes  
Time to say our last goodbye

I look back now, tears in my eyes  
Time to say our last goodbye

As I look back now, tears in my eyes  
Hear me calling "Time to say our last goodbye"

I look back now, tears in my eyes  
Time to say our last goodbye
